Billing/Finance Specialist

Rita Cornish

→

Rita joined Kelly IP in 2016. Rita began her career at Freddie Mac performing statistical loan analysis and providing database systems support, and then at Fannie Mae as a Senior Financial Analyst leading projects to develop an efficient set of reconciled property loan data used for the patented Automated Valuation Model and Desktop Underwriter. While at Fannie Mae, Rita was the recipient of several corporate awards for her database analysis and project work.

Now at Kelly IP, Rita serves as the lead role in managing their accounts payable and receivable processes among other finance and accounting tasks. Rita has created several billing efficiencies since joining Kelly IP, both internally and with client payments.

Rita, a native Washington, currently resides in Maryland with her husband.

Rita holds a B.A. in Finance from Radford University.
